INSIGHTS

1. Average of Price by country

There is a considerable variation in the average price ranges across countries. Countries like Canada and South Africa have higher averages, indicating possibly higher demand or costs associated with those countries.

2. Sum of Votes by country

India significantly dominates in the voting area, suggesting high engagement or preference compared to other countries listed. The substantial difference in votes indicates a strong representation or interest in India compared to the rest.

3.The data reveals notable disparities in both pricing and voter engagement across these countries.

Countries with higher average prices may correlate with more developed economies, while India's lead in votes highlights its large population and engagement in the context provided.

INSIGHTS

1.Sum of Price range and total Sum of Aggregate rating are positively correlated with each other.

2.New Delhi accounted for 52.27% of Sum of Price range.

3.Sum of Aggregate rating and Sum of Price range diverged the most when the City was New Delhi, when Sum of Aggregate rating were 4472 higher than Sum of Price range.

4.Cost Distribution:

The pie chart illustrates the average cost for two people based on different cuisines.

Major Cuisines:

Italian, Continental (25.1%) has the largest share, indicating it may be a popular or higher-cost option. Asian, Indonesian, and Western cuisines also hold a significant portion (15.7%).

Japanese cuisine occupies a smaller segment (6.7%).

5.Higher average costs may suggest that Italian and Continental cuisines are perceived as "premium" dining options.

The diversity in cuisine suggests varying preferences, potentially influenced by cultural or regional factors.

INSIGHTS

1.At 8,652, India had the highest Count of Restaurant Name and was 2,16,200.00% higher than Canada, which had the lowest Count of Restaurant Name at 4.

2.India had the highest Count of Restaurant Name at 8,652, followed by United States and United Kingdom.

Canada had the lowest Count of Restaurant Name at 4.

3.India accounted for 90.59% of Count of Restaurant Name.

4.Across all 15 Country, Count of Restaurant Name ranged from 4 to 8,652.

5.Total Sum of Votes was higher for No (590993) than Yes (476475).

6.New Delhi in Has Online delivery No made up 32.83% of Sum of Votes.
